

The Clumber Spaniel Club

Report of the Zoom Meeting held on 22/6/2021

This meeting was held in response to the Government's postponement of the end of lockdown. The accounts which had been sent to members were queried by some members and some asked for the full accounts to be sent. An error in presentation was identified and will be corrected before sending out the full version to members.

It was agreed that the AGM was expected to contain too many contentious issues to be conducted by email ballot and a new date was agreed with the managers of the hall.

Contributions to the Clumber Club Facebook page were discussed and it was decided that some rules might have to be decided on and enforced in the future.
